**Sherril Kilpatrick**  
*PT*

# WHY DO WE DO WHAT WE DO?

LOPT has been serving the Lincoln community since 1982. Our staff have more specialization certifications ranging from orthopedics (4) ATC's (2) Hands (1), Sports (1), Manual therapists (2) than anyone in the region! LOPT is therapist owned which strengthens our commitment to serving both patient and physician. We have a consistent reputation for quality, affordable care. All of this is evidence of our qualifications, but it's WHY we enjoy PT that sets us apart!

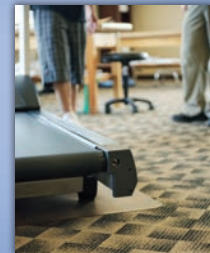

### WE CARE ABOUT PEOPLE

At the end of the day we want to help people get back their lives! Everyone has a goal. Goals among patients are different, but none is less important. We enjoy seeing people get back to training for a marathon, back on the playing field, returning to work, or being able to function more independently at home.

### POINT A TO POINT B

The most enjoyable part of our job is to see a patient go from having significant limitation such as using a walker to seeing them return to walking better than they did before their surgery. Whether it's teaching the patient improved strategies, rehab from surgery or an injury, neck or back pain, IT'S ALL ABOUT THE PROCESS!

### WE LOVE WHAT WE DO

We live out our love for Lincoln and physical therapy. We give time and resources back to the community of Lincoln. Many of us train for a competition ourselves, Our families and faith are at the core of why physical therapy is more than a profession!
